

MEETING MINUTES

MON SEPT 8th: 9:30-10:45am

- Began planning our sprint 1 presentation
- Updated Github sprint board and product backlog
 - o Added sizing and priority to all cards so we focus effort on the highest impact / large items first instead of burning time on small tasks

TUE SEPT 9th: 3:30-4:30pm

- Met with the client and Brennen McCorison to recap the summer research work
 - o Reviewed data trends and compared accuracy across the RGB and thermal cameras
 - o Brennen walked through his source code and sample testing videos
 - o Allocated next week's tasks to each group:
 - Anye and Jason: continue applying similar research testing on other sample RGB videos to discover trends based on different angles/positions
 - Logan and JJ: pick up where Brennen left off; set up/reconfigure the new thermal camera and replicate testing on thermal

TUE SEPT 9th: 6:00-7:30pm

- Finalized Sprint 1 presentation and speaking roles
- Full practice run-through, noted timing cues and handoffs

WED SEPT 10th: 9:30-10:45am

- Presented sprint 1 in class
