

# Week 12 Meeting Minutes

COSC426 - Chick Counting Group

November 29, 2025

## **Monday 11/24**

The team met on Monday to review the findings from the previous week and outline our priorities for the next phase of the project. We began drafting the final report by establishing the preliminary section structure, identifying the major components, and clarifying how each part will contribute to the overall narrative. During this discussion, we also considered how to shape the report into a format suitable for potential publication, focusing on clarity, coherence, and professional presentation. We also briefly spent time discussing the general design and organization of our final poster and accompanying presentation, ensuring that both will align with the goals and results of the project.

## **Tuesday 11/25**

Due to client request, we had no further meetings this week. The team agreed to follow plans per Monday's meeting and to have a great break!
